

Oct 14, 2024 | CSC301 Backend Team Meeting

Attendees:

Katarina, Victor, Mark

Questions:

- ☒ ~~Discuss progress~~
- ☒ ~~How to deploy backend?~~
- ☒ ~~Updates on D2 subteam progress.~~

Notes:

- Do we need to deploy D2?
 - Katarina chose Heroku because Prisma has a tutorial for integration.
- SQLite vs PostgreSQL:
 - Katarina using PostgreSQL for searching feature.
 - Can't search with SQLite.
 - PostgreSQL more difficult.
- How to fill (seed) database in Prisma.
- What VM operating system does CCBR use? (windows server > windows 10 > linux)

Action items

- ☐ Mark: load data for seeding.
- ☐ Victor: infra for testing.
- ☐ Katarina: flesh out endpoints.
- ☐ Katarina: message Jeff about database access.
