Attendees:
Katarina, Mark, Matthew, David, Jihyuk, Victor

Agenda:

- ☑ ~~Product meeting updates.~~
- ☑ ~~Backend meeting updates.~~
- ☐ Frontend meeting updates.
- ☐ How should we split the work?
    - ☐ Merging frontend and backend.
    - ☐ backend db schema consolidation, (Katarina)
    - ☐ seeding, and pulling data from biorxiv. (Mark)
    - ☐ Implementation of one or two user stories?
    - ☐ infrastructure tests and ci/cd pipeline.
    - ☐ documentation
    - ☐ Deployment options (getting it set up with partner) (Katarina and Jihyuk)

Notes:

- Jihyuk joined the backend team.
    - Suggested topical matching with gemma 2b model
-

Action items

Brian's feedback:

- It's fine monolithic application for testing/development but probably not for production
- If using amazon we can do testing with some scripts on there.
-
