Nov 11, 2024 | CSC301 Backend Team Meeting

Attendees:
Katarina, Victor, Mark

Questions:
- [ ]

Notes:
- Katarina got the user story backends merged.
- Victor made a smaller database and we seeded it in the meeting.
- Issues with installing docker on the server
- We deployed it onto DigitalOcean instead of Azure and upgraded the server. It is now working properly.

Action items:
- [ ] Victor: write instructions for docker deployment.
- [ ] Katarina: create a branch to operate on a smaller database and search in abstracts.
